

2026 The Flying Knights of Hamburg Indoor Fun Fly

Orchard Park Community Activity Center

4520 California Rd., Orchard Park, NY 14127

Come join us for indoor flying in a climate controlled environment!
What better way to learn R/C or hone your skills for the upcoming spring.

Four Sunday dates have been set for this season:

January 25th February 1st February 15th February 22nd

- Each session will be TWO hours - from 1pm until 3pm
- Pilot fee is \$15 per session, \$50 if prepaid for all four sessions
- Youth pilots under 17 are free with paid adult, spectators are free
- Pilots must have a current AMA membership card

The indoor events are for electric RC aircraft only. Larger planes and very fast planes can be dangerous - indoor flying is best for smaller and slower RC planes. Depending on attendance we may offer special times or areas set aside for small helicopters, drones, 3D, beginners etc.

Do not to fly near the ceiling since we have no way to retrieve planes if they get stuck. And it's best to wear a ball cap to shield your eyes from the lights. There are limited outlets for charging.

Please don't bring food, and don't use any facility equipment without permission!

Contact Andy Luchowski at (716) 352-9556 with any questions
